**Lesson Aims** | Learners will practice listening for gist and detail, and develop their vocabularies with the richness of idiomatic expression.
**Approximate Timing** | 45-60 minutes

**Notes to the teacher**
According to Wikipedia, *Midsummer*, also known as *St John's Day*, is the period of time centered upon the summer solstice, and more specifically the Northern European celebrations that accompany the actual solstice or take place on a day between June 21 and June 25 and the preceding evening. In Sweden, this is such an important festivity that there have been serious discussions to make the Midsummer’s Eve into the National Day of Sweden, instead of June 6.

The text is from the Swedish culture website, http://sweden.se. While it’s quite informative, it’s also quite humorous and tongue-in-cheek!

**Teacher’s Notes**

1) **LEAD-IN: QUIZ**
Ask students to work individually on the quiz. Have students pair check, then unfold the flap for the answers. Some incorrect answers are explained. Elicit from class what anyone know about how Midsummer is celebrated in northern Europe, and board ideas in a word-web.

2) **GIST LISTENING (ATTITUDE)**
Tell students they will practice listening for speaker’s purpose, feeling, attitude and opinion. They will listen to a video guide entry on celebrating Midsummer in Sweden and must decide which adjectives you could use to describe the entry reader. They may tick (√) more than one box.

**ANSWERS:** informative, humorous, tongue-in-cheek
3) DETAIL LISTENING (GAP FILL)
Students unfold the paper, read the questions, listen again and complete the gaps with a word or short phrase. All the answers come directly off the tapescript – there is no need to rephrase or paraphrase. Students pair check. If they struggle, give them the audio transcript to check. Then go over the answers with the class:

1. their own drinks
2. countryside
3. kitchen
4. (short) (humorous) song
5. two beers
6. why
7. (a bit of) practice
8. strawberry cake
9. egg (-) and (-) spoon
10. a / the barbeque / grill
11. seven (different) flowers
12. March

4) LANGUAGE FOCUS (IDIOMS)
Direct students to match the idiomatic expressions(1-10) in bold from the tapescript with their meanings (A-J). Have students pair check, then go over the answers in WCFB.

5) PRODUCTIVE TASK: Brochure
Set up the following writing task: Your hometown is hosting some visitors from a range of English-speaking countries. The tourist bureau in your hometown would like you to create a brochure/leaflet/information sheet about one of the annual celebrations that take place in your town. Name and describe the celebration, including what happens, where and when. Be sure to indicate what makes this celebration special, along with any cultural information that a tourist would find useful. Write your brochure in 220-260 words in an appropriate style.

Follow-Up: Once brochures have been written, tack completed brochures to the classroom walls for a gallery read. Students may decide to vote on the best brochures (most descriptive, most informative, etc.) and give peer feedback.
Student Worksheet 1

A holiday devoted to eating, drinking, dancing and assorted pagan rituals, Swedish Midsummer is second only in significance to Christmas. This is a guide to making the most of it. First, buy everything in the starting kit. Remember, here everyone brings their own drinks. Make sure you get to the state-owned off-license in plenty of time, just in case you are whisked off to an island somewhere.

This is downtown Stockholm on Midsummer’s Eve. If you can’t bear the silence, or being on your own, stay away from the city. Midsummer is supposed to be celebrated in the countryside, surrounded by birch trees, fields and water. The first thing you need to do is make your own midsummer garland. Avoid the kitchen at all costs. Some unfortunate soul always gets stuck scrubbing the potatoes.

Then it’s time for a fabulous lunch of pickled herring and new potatoes spiced with dill and chives. You drink beer and nubbe, a Swedish vodka served ice cold in a shot glass. The nubbe must be consumed in the time-honored way: always preceded by a nubbevisa, a short humorous song. We recommend two beers per nubbe: this will improve both your singing and your Swedish.

No Midsummer is complete without a sudden downpour. Fortunately, it usually stops just as unexpected as it started. After lunch, it’s time to raise the maypole, the ancient fertility symbol. Watch carefully and you should be able to work it out. The origins of Swedish Midsummer are unclear. For a millennium, it’s been a celebration of summer and a fertility rite. Human sacrifices are a thing of the past, but revelers today are just as passionate. Like many Swedish traditions, the why’s less important than the how.

Now the dancing begins. Everybody knows små grodor, the little frogs, locking your hands on your lower back and jumping like a frog may seem strange, but for at least one day of the year, it makes perfect sense to Swedes. It won’t take long to master the dance steps. Swedes can do it in their sleep, and with a bit of practice so will you. The humiliation by dance is mercifully short-lived and you can count on your host to console you afterwards with a piece of strawberry cake.

Next, it’s time to get physical, with tugs-of-war, horseshoe tossing, egg-and-spoon races, boot throwing, or apple bobbing. Since everyone takes part, you don’t have to be embarrassed if you make a fool out of yourself. One caution: keep an eye on grandma – this sort of thing brings out her ruthless streak.

All this strenuous exercise calls for some real food: time for a barbeque. Since all Swedish men want to show off at the grill, this might be a good time to get to know some Swedish women. Anything can go on the grill: meat, fish, vegetables or fruit – there’s definitely room for to experiment here.

Once you’ve eaten, you either have a quiet night, a sauna, a swim, a few drinks, pause for reflection, or you hit the dance floor with new and old friends. Be sure to listen to some dans-band music before Midsummer so you know what to expect. It takes a bit of getting used to. If you’re lucky, there will be some ABBA too.

Generally speaking, Swedes are somewhat reserved. Tonight is the exception. Midsummer Eve is a night for romance. If you don’t find or already have a partner, pick seven different flowers, put them under your pillow and according to legend, you will dream of the person you will marry. If you don’t, you probably picked the wrong flowers. At Midsummer, the sun never completely sets: this is the longest day of the year. From now on it only gets darker, but there will be a baby boom to brighten up March.
